- The east wall of glass is suspended in mid air, sloping an almost unbelievable two feet creating a surreal connection with the sky surrounding you.
- Imagine living and entertaining where you own the sunrise. Where the music room, gathering room, bars, whirlpools, formal and informal dining areas are exceeded only by the views they command.
- The Master Bedroom features a 55 foot wide panoramic view of the river and city skyline. This suite is for more than sleeping with a fireplace, private office, breakfast retreat and balcony within its confines. Matching bathroom and dressing suites cap each side of this opulent respite.
